Writing Bibliographies
An SHGC Guide

- What is a bibliography?
A bibliography is a list of ALL the resources – books, websites, newspaper articles, magazine articles, images, etc. – that you used in completing an assignment / project.

If you found, read or used information or ideas that came from somewhere other than your own brain, then the source of the information or ideas needs to be included in your bibliography.

- Why do I need to include a bibliography?
  o To show that you’ve read / researched widely
  o So readers can verify your research
  o To acknowledge information or ideas supplied by others

- How do I write my bibliography?
Bibliographies are written in alphabetical order according to the author’s last name. If the resource has no identifiable author, then it’s included alphabetically by title.

Your bibliography should be included at the end of your assignment / project, on a separate page.
### Books

Include the following information:

- Author’s last name, first initial.
- Year of publication.
- Title of book (*italics* or *underlined*).
- Edition (if not the first edition)
